

## Golf Ball- Novel Idea Called Novelty Golf Balls!

Do you normally find it difficult to procure the just-right-kind of gift for your golf mates? You don't need to look any further as novelty golf balls are capable of stumping anyone any day. Not only they make a humorous gift, novelty balls also make a memorable souvenir for your friends to cherish for a long time. Novelty golf balls come in various varieties. Ranging from the genuine golfing ones to just for gag versions, they are also an interesting means to get a message across. Overall, they are an inexpensive gift option that is remembered, always. Lookout for those special novelty golf balls meant to provide therapy or to show one's mood. What would you like to do to the novelty golf balls that come with "mother-in-law" or "boss" written over them. What a way to vent ones feelings by swinging away to satisfaction! You can never have enough of those swings, can you?! Novelty golf balls also make for a good wedding gift to communicate thoughts that you may not normally be able to put in words upfront. You can pick from the ones having sentimental phrases to ones with naughty cute words to amuse the newly weds. Then there is this Novelty golf ball which is genuinely meant for 'fair play' on golf course. Or at least the recipient may believe so. You sure must have heard about the famous "unputtable" golf ball which appears to be just another run of the mill golf ball. However, when brought into play, it can send any golf enthusiast into a complex. No matter how it's hit, it will refuse to go straight. It may rather jump, skip or even roll backwards than follow a straight path, much to the amusement of everyone around. Another funny type of novelty golf ball is the one which breaks into a billion pieces when hit with the golf club. Also, imagine how would it feel if someone were to hit this other kind of normal looking novelty golf ball with full force, only to see color ribbons popping out! Good for a great laugh! This one takes the crown and is my personal favorite among all the novelty balls available. It's called the "floater". How about hitting your golf ball into the waters and then seeing it popping up on surface for you to take your shot! These were a few examples of the kind of novelty golf balls available in the market. Their ever rising popularity is not just with the golfers, but with everyone in general as they make an excellent and memorable gift.
